

KIRBY HIGH SCHOOL

April 16, 2021

To Whom It May Concern:

I am pleased to write this letter of recommendation on behalf of Mr. Paul Hill in support of his pursuit of administrative positions in the field of education. He is a proven leader, educator, and motivator that is worthy of the attention of potential employers looking to hire transformational change agents to improve their organization. I've had the pleasure of serving as Mr. Hill's supervisor at Kirby High School, but I also have a unique honor of being one of his former middle school students. Mr. Hill's tutelage and support over the years has played a major role in my success as an educator and an instructional leader over the past 22 years. Mr. Hill is highly organized, competent, caring, and well-versed in human-relation skills. He is respected by students, peers, administration, and in the school community. His ability to coach teachers and to motivate students is uncanny. His ability to multitask and to action plan across various disciplines with excellence causes many to see him as a factotum of sort. This letter does not begin to sum up Mr. Hill's greatness as he has my highest recommendation without reservation. I welcome you to contact me should you need additional insight as to the ability, skills, and potential success of this outstanding educational leader.

Respectfully,

Dr. Steevon R. Hunter
